

ERRATUM

**“Effect of the Direct Exchange Interaction between Magnetic Impurities
on Magnetization in Diluted Magnetic Semiconductors”,**

[Vu Kim Thai, Le Duc Anh, and Hoang Anh Tuan

Communications in Physics **22** (2012) 53]

and

**“Curie Temperature of Diluted Magnetic Semiconductors: the Influence
of the Antiferromagnetic Exchange Interaction”,**

[Vu Kim Thai, Le Duc Anh, and Hoang Anh Tuan

Communications in Physics **22** (2012) 141]

The abscissa axis of Figs.1, 2, 3, 4, 5 in the first paper should correspond $T/3$. The ordinate axis of Figs. 1, 2, 3, 4 in the second paper should correspond $T_c/3$.

The conclusions are unaltered.

We thank the anonymous referee of V.K.Thai’s thesis for bringing this to our attention.

Received 12 Decemer 2012.
