

JOURNAL OF COMPUTER SCIENCE AND CYBERNETICS

Volume 31, Number 4, 2015

Table of Contents

- 267 **Improving bottleneck features for vietnamese large vocabulary continuous speech recognition system using deep neural networks**
Quoc Bao Nguyen, Tat Thang Vu, and Chi Mai Luong
- 277 **Definition membership function based on approach to hedge algebras**
Doan Van Thang and Doan Van Ban
- 291 **The preservation of good cryptographic properties of mds matrix under direct exponent transformation**
Tran Thi Luong, Nguyen Ngoc Cuong, and Luong The Dung
- 305 **A probabilistic relational database model and algebra**
Nguyen Hoa
- 323 **Dynamic semi-supervised fuzzy clustering for dental X-ray image segmentation: an analysis on the additional function**
Tran Manh Tuan, Le Hoang Son, and Le Ba Dung
- 341 **Identifying undamaged-beam status based on singular spectrum analysis and wavelet neural networks**
Sy Dzung Nguyen, Quoc Hung Nguyen, Kieu Nhi Ngo
- 357 **The minimum total heating lander**
Dang Thi Mai
