

## TABLE OF CONTENTS

|                                                                                                                                                                                                                                                                                                                                                                   |         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| <b>Evaluating the plasma interleukin-1 beta and interleukin-8 levels in patients with chronic obstructive pulmonary diseases following treatment with allogeneic mesenchymal stem cell derived from umbilical cord tissues and platelet rich plasma.</b> Do Minh Trung, Dao Ngoc Bang, Le Phuong Ha, Ta Ba Thang, Can Van Mao, Le Thi Bich Phuong, Dong Khac Hung | 1-13    |
| <b>Effects of rubiadin-3-methyl ether on the immune properties of hUC-MSCs.</b> Nguyen Thi Sam, Nguyen Thi Huyen, Nguyen Thi Phuong-Anh, Pham The Dan, Nguyen Thi Thuy-Ngan, Nguyen Manh Cuong, Chu Hoang Ha, Nguyen Trung Nam                                                                                                                                    | 15-19   |
| <b>Identification of hub genes and drug-gene interactions for targeted breast cancer treatment by integrated bioinformatics analysis.</b> Dao Manh Cuong, Bui Van Ngoc                                                                                                                                                                                            | 21-34   |
| <b>Molecular characterization of methicilin-resistant <i>Staphylococcus aureus</i> strain BM85 isolated from a Vietnamese patient with bloodstream infection.</b> Hoang Dinh Phuc, Tran Thi Thanh Tam, Le Thi Thu Hang, Nguyen Thi Kieu Oanh, Vu Dang Hai Long, Kieu Duy Hung, Anne-Laure Banuls, Nguyen Quang Huy                                                | 35-44   |
| <b>Preparation of inclusion complex between ellagic acid and hydroxypropyl-<math>\beta</math>-cyclodextrin.</b> Pham Thi Lan, Bui Van Cuong, Le Thi My Hanh, Nguyen Thi Phuong Lan, Roman Kushnir, Tatyana Usacheva                                                                                                                                               | 45-53   |
| <b>Significant association between a non-synonymous SNP in <i>IGFBP5</i> gene and the growth of striped catfish (<i>Pangasianodon hypophthalmus</i>, Sauvage, 1878).</b> Trang Thi Huyen Tran, Hoang Son Tran, Binh Thi Nguyen Le, Sang Van Nguyen, Hai-Anh Vu, Oanh Thi Phuong Kim                                                                               | 55-65   |
| <b>The natural A3B3 reassortant of the infectious bursal disease virus (IBDV) in Vietnam detected in 2011 through phylogenomic and sequence analyses.</b> Do Thi Roan, Le Thi Kim Xuyen, Doan Thi Thanh Huong, Nguyen Thi Khue, Pham Thi Khanh Linh, Le Thanh Hoa                                                                                                 | 67-81   |
| <b>Evaluating photosynthetic performance of transgenic soybean harboring <i>CKX13</i> under salinity conditions.</b> Vo Thi My Duyen, Hoang Thi Lan Xuan, Tran Nguyen Hoang Tu, Nguyen Tien-Dung, Nguyen Phuong Thao                                                                                                                                              | 83-92   |
| <b>Drought-related parameters reveal better drought tolerance of transgenic plants overexpressing a soybean <i>cytokinin dehydrogenase</i> gene.</b> Hoang Thi Lan Xuan, Nguyen Tien-Dung, Trinh Thi Minh Thanh, Phan Minh Thu, Le Ngoc Vy, Nguyen Phuong Thao                                                                                                    | 93-101  |
| <b>Dehydrin <i>AmDHI</i> improves drought tolerance in transgenic maize plants.</b> Huynh Thi Thu Hue, Le Quynh Lien, Nguyen Chi Mai, Tran My Linh, Bui Manh Minh                                                                                                                                                                                                 | 103-111 |
| <b>Application of fluorescence microscopy for histological discrimination of golden camellias leaves.</b> Le Thi Van Anh, Mai Thi Phuong Nga, Tran Phuong Linh, Nguyen                                                                                                                                                                                            | 113-120 |

- Minh Anh, Huynh Thi Phuong Linh, Nguyen Chi Thanh, Le Thi Thu Phuong, Nguyen Thi Kieu Oanh
- Comparison of biofloc formation from microalgal cultivation by auto- and bacteria-associated types of flocculation.** 121-127  
Tran Thi Ngoc Thu, Nguyen Thi Dong Phuong, Tran Van Luan, Le Thi Van Anh
- Antioxidant activities and free amino acid content of rice responded to *xanthomonas oryzae pv oryzae* infection under phosphate starvation condition.** 129-139  
To Thi Mai Huong, Mai Thi Phuong Nga
- Natural variation in fatty acid composition of diverse Vietnamese rice germplasm.** 141-153  
Mai Thi Phuong Nga, Nguyen Thi Thuy Linh, Tran Thi Anh Nguyet, Ngo Thi Hong Ngoc, Chu Thi Quynh Anh, To Thi Mai Huong
- Comparative analysis of eukaryotic microbial communities associated with *Acropora formosa*, sediment, and seawater in a coral reef ecosystem of Whale island, Nha Trang bay, Vietnam.** 155-165  
Trinh Khanh Linh, Bui Van Ngoc
- The growth and probiotic characteristics of *Bacillus velezensis* BS in soybean meal used as synbiotic-like preparations for *Litopenaeus vannamei* culture.** 167-177  
Phuong Ha Hoang, Minh Thi Nguyen, Nhat Huy Chu, Huong Giang Bui
- Investigation of culture conditions for recombinant xylanase a production and its enzymatic hydrolysis of agricultural wastes.** 179-187  
Do Thi Tuyen, Vu Thanh Tung, Nguyen Nhat Linh, Le Thanh Hoang, Nguyen Sy Le Thanh, Nguyen Thi Anh Tuyet, Nguyen Thi Thao, Nguyen Thi Hien Trang, Nguyen Thi Trung, Luu Minh Duc, Dao Thi Mai Anh
- Effects of microbial inoculant on chemical compositions and *in vitro* digestibility of elephant grass-based silage.** 189-196  
Nguyen Thi Thanh Loi, Vu Thi Hanh Nguyen, Pham Quynh Anh, Quach Ngoc Tung, Tran Hiep, Nguyen Thi Thu An, Chu Hoang Ha, Phi Quyet Tien
