RESEARCH PAPER

Tuning acoustic performance of multi-chamber hybrid mufflers

Van-Hai Trinh

209

An edge-based smoothed finite element for buckling analysis of functionally graded material variable-thickness plates

Tran Trung Thanh, Tran Van Ke, Pham Quoc Hoa, Tran The Van, Nguyen Thoi Trung

221

Propagation of waves in an incompressible rotating transversely isotropic nonlocal elastic solid

Baljeet Singh

237

Experimental and numerical evaluation of thermodynamic effect on NACA0015 hydrofoil cavitation in hot water

Anh Dinh Le

253

Development of a novel MR clutch featuring tooth-shaped disc

Quoc Hung Nguyen, Bao Tri Diep, Duy Hung Nguyen, Van Bien Nguyen,
Van Bo Vu, Qui Duyen Do

265

Free vibration and buckling of bidirectional functionally graded sandwich plates using an efficient Q9 element

Cong Ich Le, Quang Dung Tran, Vu Nam Pham, Dinh Kien Nguyen
