

Vietnam Journal of Mechanics

Volume 37 · Number 1 · February 2015

PAPERS

Identification of material parameters based on a homogenization method using EBSD data

P. V. Tung 01

A fuzzy finite element algorithm based on response surface method for free vibration analysis of structure

N. T. Hung, L. X. Huynh and P. H. Anh 17

Data assimilation method in flood forecasting for Red river system using high performant computer

N. T. Don, N. V. Que, T. Q. Hung and N. H. Phong 29

Dynamic stiffness method for free vibrations analysis of partial fluid-filled orthotropic circular cylindrical shells

T. I. Thinh, N. M. Cuong and V. Q. Hien 43

A global-local approach to the design of dynamic vibration absorber for damped inverted pendulum structures

N. D. Anh and N. X. Nguyen 57

An approximate secular equation of Rayleigh waves in an elastic half-space coated by a thin weakly inhomogeneous elastic layer

P. C. Vinh and V. T. N. Anh 71
