RESEARCH PAPER

Thermal and thermomechanical buckling of CNT-reinforced composite sandwich cylindrical shells including elasticity of tangential edge restraint

Hoang Van Tung, Pham Thanh Hieu **297**

A 4-node quadrilateral element with center-point based discrete shear gap (CP-DSG4)

Minh Ngoc Nguyen, Tinh Quoc Bui, Vay Siu Lo, Nha Thanh Nguyen **319**

Reflection and transmission of P-waves at a very rough interface between two isotropic elastic solids

Pham Chi Vinh, Do Xuan Tung, Nguyen Thi Kieu **333**

A numerical study of the solidification process of a retracting fluid filament

Binh D. Pham, Truong V. Vu, Lien V. T. Nguyen, Cuong T. Nguyen, Hoe D. Nguyen, Vinh T. Nguyen, Hung V. Vu **347**

Experimental studying the effect of water temperature on friction properties of marine propeller sliding bearing

Hiep Xuan Trinh, Ngoc Bich Nguyen, Sinh Truong Nguyen **359**

On the behavior of nonlinear hydrodynamic coefficients of a submerged cylinder beneath the water surface

Nguyen Van My, Le Anh Tien, Phan Hoang Nam, Nguyen Quoc Khanh, Chau Van Than, Phan Thanh Hoang **371**

Crack identification in beam by antiresonant frequencies

Nguyen Tien Khiem, Nguyen Minh Tuan, Pham Thi Ba Lien **389**
