RESEARCH PAPER

- Nonlocal effects on Rayleigh-type surface wave in a micropolar piezoelectric medium**
Baljeet Singh, Asha Sangwan, Jagdish Singh 1
- Nonlinear response of doubly curved sandwich panels with CNT-reinforced composite core and elastically restrained edges subjected to external pressure in thermal environments**
Hoang Van Tung, Dao Nhu Mai, Vu Thanh Long 15
- Axial vibration of double-walled carbon nanotubes using double-nanorod model with van der Waals force under Pasternak medium and magnetic effects**
V. Senthilkumar 29
- A meshfree-based topology optimization approach without calculation of sensitivity**
Minh Ngoc Nguyen, Tinh Quoc Bui 45
- Buckling of chiral elastic rings spanned by fluid films**
Hoang Minh Tuan, Nguyen Thi Lan, Tran Minh Tuyen 59
- Size-dependent behavior of a MEMS microbeam under electrostatic actuation**
Cong Ich Le, Quang Dung Tran, Van Dung Lam, Dinh Kien Nguyen 69
- Strength and fatigue analysis of periodic perforated materials using the computational homogenization and ES-FEM approaches**
Phuong H. Nguyen, Canh V. Le, Phuc L. H. Ho 83
